

**WELCOME TO THE METALDESK TRADING PLATFORM,**  
the world's first exchange-based trading  
platform for physical precious metal.

All information and prices displayed in this document are indicative only and are not reflective of true Market data. Some diagrams may contain information that is for illustrative purposes only and may not be a true representation of the Products or prices offered via Allocated Bullion Exchange's MetalDesk. The functionality and layout of MetalDesk as presented here may also differ from what is presented on the actual website. When this Quick Guide refers to 'you' it means any Customer trading upon MetalDesk.

# Your Side Bar

On the left side of the screen you will find your side bar with different tabs that will allow you to access different windows.

in Transfer you will be able to manage and view the movement of funds or bullion for your trading account.

Reports, allows you to download statements and view your trading and holdings history.

Keep up to date with the latest bullion news and global events.

Help, is where you can find help documents and send support requests.

Update account details, view your fees, change passwords and view current account settings.

The finance tab allows you to quickly manage your finances and see all your clients' trading activity and cash movements

E-WARRANTS is where you can create or edit electronic vault warrants.

# Your Home Page

When you first log into MetalDesk, you will be taken to the **Trade & Invest** screen. From here, you can place **buy** and **sell** orders, view tradable products, holdings, open orders, and add products of interest to your **watchlist**.

## Features

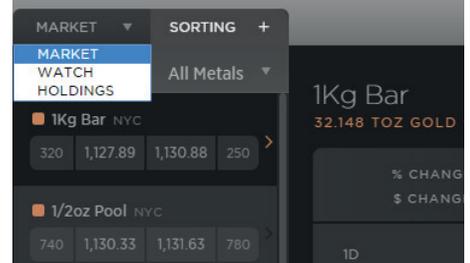

The Trade & Invest screen has charting, live quotes, market depth, holdings, your watchlist and all open orders. Trading takes place in USD or AUD.

## Quick Tip

Add products to your watchlist by selecting a product in your desired location and clicking watch.

You can sort through market, watch or holdings from the drop-down tab on either the left or right side of the screen.

# Creating a Client Account

There are three steps involved in creating downstream client accounts:

1. Click on the Reports section of MetalDesk.
2. Click on the Clients tab of MetalDesk and ensure that New Client is selected.
3. You can then select to create either a HIN Only (Holder Identification Number) account, or an account where you input the full client details.

ORDERS		TRANSACTIONS		HOLDINGS		CLIENTS		STATEMENTS		CASH TRANSACTIONS	
Select or Filter Client											
New Client											
HIN	NAME	ACCOUNT TYPE	ALLOW TRADE	ASSIGNED	AVAILABLE BALANCE	RESERVED BALANCE	EXECUTION FEES	UPDATE RATES			
PC000012	PC4 PTY LTD (PC000012)		YES		1,357,101.33	0.00	1.50%	PC4 PTY LTD (PC000012)			
								ASSIGNED TO:			
								EXECUTION FEES 1.50%			
								STORAGE RATES

By clicking Create you agree that you have issued the client with all requisite documentation and have complied with the AML Act's identification requirements as agent

Create Cancel

### Email address

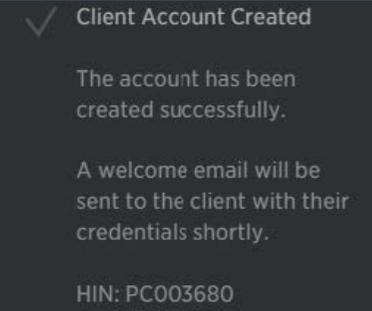

Either send the client login details to your own email address and forward them to client, or send directly to the client.

### Account Reference

Create an account reference that helps you keep track of the client.

## HIN ONLY ACCOUNT

By selecting the HIN Only account, the client details are kept confidential and the account is set up using only a unique HIN number.

## Account Reference

When creating a HIN Only account, it is important to record which client account is associated with the HIN number in your external CRM, as there are no client details stored within MetalDesk apart from the details inputted in the email and account reference fields.

# Changing a Client's Fees

To edit a client's fees:

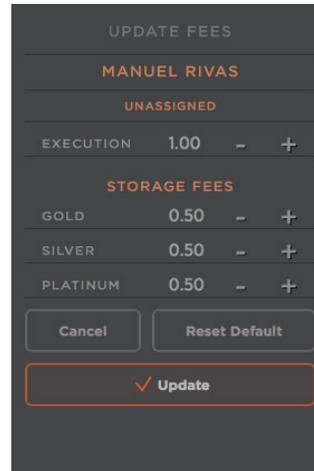

1. Click on the Reports section of MetalDesk.
2. Click on the Clients tab of MetalDesk.
3. Select a Client you wish to change fees for.

4. When you click on the client, the screen Update Fees will appear on the right side of your window.

This will display the client's assignation, execution fee and storage fees.

5. Click on Edit Fees to change the fees.

To change the fee click on the +/- buttons, or use your cursor to select the fee.

Once you are satisfied with the changes click Update to apply the new fee.

The Reset Default button will set fees to the Client's Broker default fees.

This function can be used to tailor a specific client's storage and execution fees.

If left unedited the client's fees will be set at the default rate.

Ensure you have the correct MARKET selected. Fees are set specifically for USD or AUD. See Page 18 – Selecting Your Market.

# Crediting a Client's Trading Balance - Credit Line

To assign a portion of your Credit Limit to a Client's Trading Balance:

1. Click on the Finance window.
2. Select MANAGEMENT tab.
3. Selecting a client will open the MANAGE BALANCES window. Enter the required Credit Limit and add any notes, then select CONFIRM.

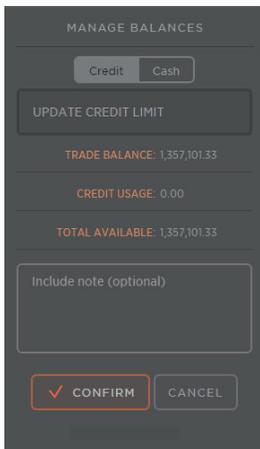

### CLIENT USAGE: USED CLIENT CREDIT

Shows the amount of the credit line that has been distributed to all clients.

### CLIENT USAGE: CLIENT UNSETTELED

Shows the total unsettled trade balance due for immediate settlement with the Exchange.

### Credit

When entering / updating a Client's Credit Limit, the final amount of new Credit Limit is entered.

### Note

Ensure the correct MARKET has been selected in the SETTINGS window as USD and AUD Credit Limits are set separately. See Page 18 – Selecting Your Market.

Total credit line available to the firm is displayed in the top right of the screen.

This credit line can then be distributed to clients using the Finance Tab.

The credit line is based on the amount of collateral deposited in the ABX trust account.

### SETTLEMENT

The Full Member is responsible for payment of all Client Unsettled Trade Balances at the close of each day. ABX issues a Settlement Report detailing Client trading activity and the outstanding settlement amount, with remittance due same day to the ABX Client Trust Account. Once received by ABX, the Full Member's Cash Balance is credited, and Client balances can be cleared (see page 10 for details).

# Crediting a Client's Trading Balance – Cash (Method 1)

## Client Deposit/Withdraw Notification

A Client can use the CASH tab in the TRANSFER window of their MetalDesk platform to make a Deposit or Withdraw request sent to the Full Member via a MetalDesk Payment Notification email.

When completed, a Deposit or Withdraw request will also create an entry, in the PENDING section of the CASH MOVEMENT tab in the FINANCE window of the Broker's MetalDesk platform.

This PENDING entry must be APPROVED before any cash funds are credited or debited from the Client's available trading balance. The request can be cancelled using the DENY button.

1. Click on the FINANCE tab and select "CASH MOVEMENT".
2. Approving the pending cash deposit for the relevant client will credit their cash trading balance on MetalDesk.

This is not the primary means of crediting a client's balance for the client of a Full Member.

To credit a client with cash, the broker house account must first have cash (not in the form of collateral deposit) available.

MANAGEMENT		CASH MOVEMENT				
CASH BALANCE: 99,800,000.00						
PENDING		COMPLETED	CANCELLED			
CUSTOMERS	DESCRIPTION	DATE	TYPE	VALUE	APPROVE	DENY
PCS PTY LTD (PC000014)	PC000014	08:47 AM 25/09/2015	Withdraw	7,000.00	APPROVE	DENY
PCS PTY LTD (PC000014)	PC000014	08:47 AM 25/09/2015	Deposit	5,000,000.00	APPROVE	DENY

09/2015	Deposit	4,000.00	APPROVE	DENY
09/2015	Deposit	1,000,000.00	APPROVE	DENY

You will find the APPROVE and DENY buttons on the right side of the CASH MOVEMENT screen.

# Crediting a Client's Trading Balance – Cash (Method 2)

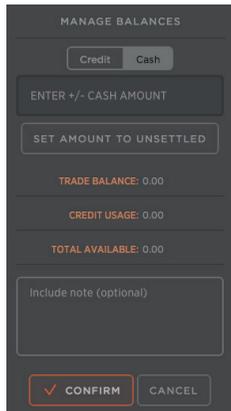

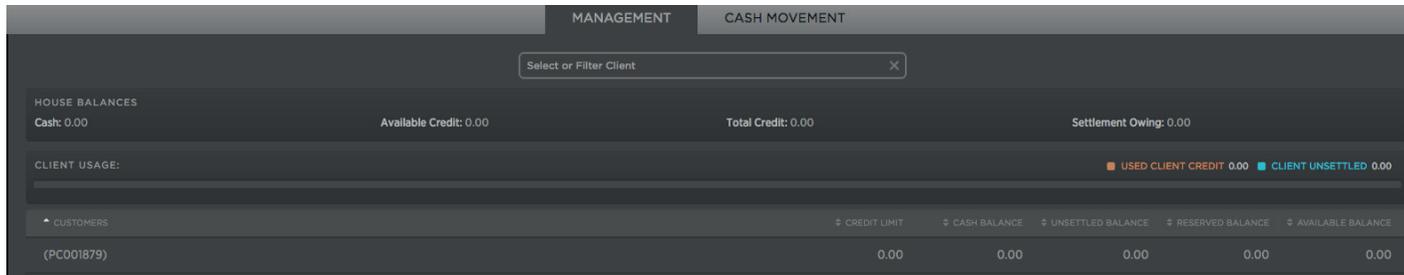

## Direct Deposit/Withdraw

A Full Member can deposit or withdraw cash from a Client's MetalDesk trading balance using the MANAGEMENT tab in the FINANCE window.

Selecting a Client will open the MANAGE BALANCES window, and when Cash is selected a positive amount is added for a deposit, and a negative amount for a withdrawal.

A Client's unsettled trading balance can easily be cleared by selecting the SET AMOUNT TO UNSETTLED button.

1. Click on FINANCE window.
2. Select MANAGEMENT tab.
3. Selecting a client will open the MANAGE BALANCES window. Click the Cash button and enter the deposit/withdraw amount (or SET AMOUNT TO UNSETTLED) and add any notes, then select CONFIRM.

### Cash

When entering a Client's deposit or withdraw amount, a negative amount must be entered for a withdrawal.

### Note

Ensure the correct MARKET has been selected in the SETTINGS window as USD and AUD cash trading balances are held separately. See Page 18 – Selecting Your Market.

This is not the primary means of crediting a client's balance for the client of a Full Member.

To credit a client with cash, the broker house account must first have cash (not in the form of collateral deposit) available.

### SETTLEMENT

The Full Member is responsible for clearing all Client Unsettled Trade Balances from their own cash balance in the ABX Client Trust Account. ABX issues a Settlement Report at market close detailing Client trading activity and the outstanding settlement amount required. When the Member's MetalDesk cash balance has been credited by ABX, the Client balance can be cleared easily by selecting SET AMOUNT TO UNSETTLED.

# Placing an Order on Behalf of a Client

An Associate Member must have the consent of a client to trade on their behalf. Clients can give this consent to their Associate Member when first accessing MetalDesk.

We have made buying and selling physical bullion on behalf of your clients as simple as a few clicks of a mouse.

1. From the Trade page, select the metal type (gold, silver or platinum), the product (eg. 1kg bar) and the location (eg. Hong Kong).
2. Click the  or  icon to bring up an order form for your selected product.
3. Select the order type (market or limit) and follow the prompts and click buy/sell.
4. Select the client on whose behalf you will be trading.
5. Review your order, then click confirm.

Once a client is selected it will display their available trading balance here.

## Features

You can currently buy and sell bullion in the following locations and currencies:

USD- Auckland, Bangkok, Dubai, Hong Kong, Istanbul, London, New York, Shanghai, Singapore, Sydney & Zurich.

AUD - Adelaide, Brisbane, Melbourne, Perth & Sydney.

## Quick Tip

The market depth shows the buy and sell prices for a product and the quantity available at each price level, representing how much bullion can be bought and sold at a given price.

# Creating an Electronic Vault Warrant

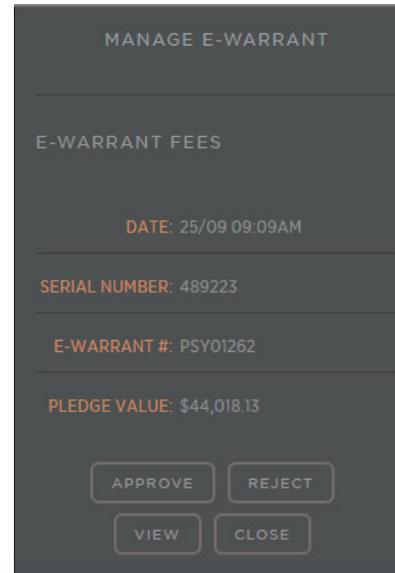

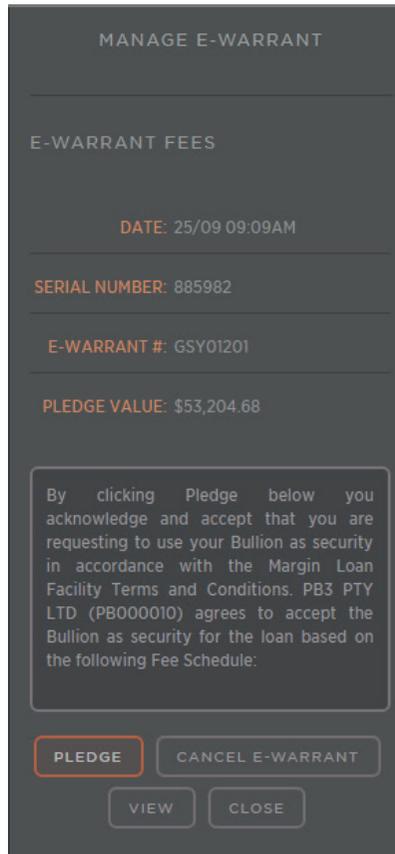

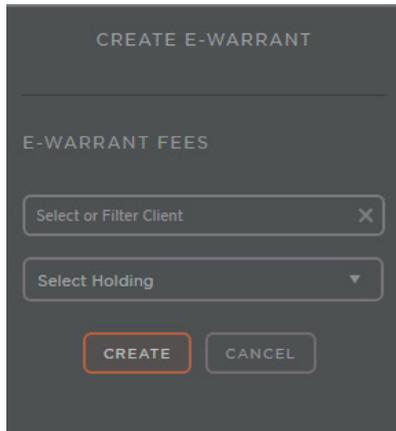

1. From the E-WARRANTS page click on Create E-WARRANT.

2. Select the client on whose behalf you will create the warrant and the metal holding the warrant will be created for.

3. Once the E-WARRANT has been created, it can be pledged (to the Full Member), viewed, or cancelled.

4. Once the E-WARRANT has been pledged, the Full Member can view, approve, or reject the warrant.

Once the Warrant has been approved by the Prime Boker, the client can no longer trade or withdraw the bullion until the pledge has been released.

## Features

The client has the functionality on the MetalDesk Graphical User Interface to create and pledge the E-WARRANT.

Only the Full Member has the ability to accept the pledge on an E-WARRANT (step 4).

When a Warrant is created it is given a unique Warrant Number.

Each E-WARRANT is created for a bar with a unique bar serial number.
